HELLO!

I am a frontend developer whose focus is creating easy-to-use interfaces and producing clean, human-readable code. I have 10 years experience creating digital experiences, communicating ideas, developing team strategies, and managing client expectations. I am passionate about learning new technologies while improving my skills. I have a positive attitude and enjoy challenging projects..

PROFESSIONAL EXPERIENCE

Senior Frontend Developer — Brunello, Inc.

March 2012 - Current

Specializing in web development, user experience, and responsive web design. Ensures the interactions and overall experience of the digital product meet client and business goals. Provides guidance for technical implementation, integrations and estimating. Translates wireframes, comps, and functional requirements into accessible HTML, CSS and Javascript. Works frequently in Drupal, Wordpress, and Shopify.

Partner — Raskyl Collective, LLC.

June 2011 - 2018

Developed strategies and technical implementations for clients including websites, applications, and HTML emails. Past clients include Drizly, GasBuddy, Harvard, Unreal Candy, Latitude Sports Clubs, Mass. Emergency Nurses Association and more.

Lead Web Designer — Questex Media, LLC.

November 2010 - March 2012

Worked closely to support marketing initiatives by designing websites and landing pages. Integrated social media and video content. Implemented designs as HTML/CSS/JS solutions for Drupal websites. Developed team initiatives and strategies.

Web Designer and Developer — WebGURU, Northeastern University

April 2009 - December 2010

Designed and developed platform to help students navigate the hurdles of undergraduate research and connect with research opportunities. Produced a series of educational videos on professional meetings and conferences. Showcased at the Northeastern University Research & Scholarship Expo 2010.

Project Designer — Wojciechowski Design

July 2008 - April 2009

Designed wayfinding and signage systems for the Cambridge and Crandall Public Library. Art directed typography, photography, and visual styles. Created 2d and 3d visualizations to present work to clients. Drafted artwork for fabrication, including designing mounts, materials selection, and placement.
